He is a revolutionary freedom fighter who gave sleepless nights to the mighty British Army. Alluri Sitarama Raju was born in present-day Andhra Pradesh, he became involved in anti-British activities in response to the 1882 Madras Forest Act, which effectively restricted the free movement of Adivasis (tribal communities) in their forest habitats and prevented them from practicing a traditional form of agriculture known as podu.

Harnessing widespread discontent towards British colonial rule in the backdrop of the non-cooperation movement, he led his forces against the British, aiming to expel them from the Eastern Ghats region through his guerilla campaigns. During this period, he led numerous raids on local police stations to acquire firearms for his under-equipped forces.

After putting up a massive effort for nearly two years, the British finally managed to capture Alluri in the forests of Chintapalle, he was then tied to a tree and executed by shooting. The people honoured him with the title 'ManyamVeerudu' which translates to 'Hero of the jungle'.

# Rabindranath Tagore

## Jayanthi

On 07-05-2022

Rabindranath Tagore was an icon of Indian culture. He was a poet, philosopher, musician, writer, and educationist. Rabindranath Tagore became the first Asian to become Nobel laureate when he won Nobel Prize for his collection of poems, Gitanjali, in 1913. He was popularly called as Gurudev and his songs were popularly known as Rabindrasangeet. Two songs from his Rabindrasangit canon are now the national anthems of India and Bangladesh: the Jana Gana Mana and the Amar Shonar Bangla.

In 1919, following the Jallianwala Bagh massacre, Tagore renounced his knighthood. He was a supporter of Gandhiji but he stayed out of politics. He was opposed to nationalism and militarism as a matter of principle, and instead promoted spiritual values and the creation of a new world culture founded in multi-culturalism, diversity and tolerance. Unable to gain ideological support to his views, he retired into relative solitude. Tagore was not only a creative genius, he was quite knowledgeable of Western culture, especially Western poetry and science too. Tagore had a good grasp of modern - post-Newtonian - physics, and was well able to hold his own in a debate with Einstein in 1930 on the newly emerging principles of quantum mechanics and chaos.
