

DEPARTMENT OF MATHEMATICS STRENGTHS AND ACHIEVEMENTS

The Mathematics Department has several key strengths and achievements that contribute to its distinguished standing:

- 1. Experienced Faculty:** The faculty members are well experienced in teaching mathematics.
- 2. Creative Teaching and Learning Practices:** The department integrates free educational tools and software into teaching, learning, and evaluation, alongside innovative resources like the TLP app as a teaching diary, making learning accessible and interactive.
- 3. Value-based Education:** Emphasizing social responsibility and citizenship, the department engages students in community service projects and extension activities, fostering well-rounded development.
- 4. Student Support and Engagement:** The department prioritizes student support by guiding them on higher education paths and preparing them for competitive roles through courses like 'Analytical Skills'.

ACHIEVEMENTS

The department's commitment to bridging the knowledge gap for first-generation rural students is demonstrated through its focused efforts to cultivate confidence and proficiency in mathematics. By fostering students' analytical and problem-solving abilities, the department enables them to excel in the subject and pursue competitive academic goals.
